

**Inpatient Rehabilitation
Orthopedic/Joint Replacement
Outcomes 2020**

Located in New York’s Hudson River Valley, Helen Hayes Hospital primarily serves patients from throughout the New York Metropolitan region and also attracts patients from across the country.

In 2020, the hospital treated 1214 inpatients, who ranged in age from 15 - 95.

The referring physician’s protocols concerning weight bearing, medication, and therapies are precisely followed and form the basis of the treatment plan at HHH, which may include:

- Physical & Occupational Therapy
- Individual & group therapy utilizing NuStep®, CPM & other equipment
- Pain management
- Patient education including falls prevention
- Customized home exercise program

Both acute and sub-acute rehab options are available for orthopedic/joint replacement patients.

Our interdisciplinary team approach to rehabilitation

and depth of medical, nursing, and therapeutic care, paired with the most cutting-edge rehab technology, means we can admit patients sooner in their recovery. All patients receive a minimum of three hours of therapy daily, allowing them to make functional gains at an accelerated rate.

“ Best nurses, aids, physical therapists, and occupational therapists. I went from not walking to walking, climbing steps, and gaining my independence. HHH is a five-star facility. What the therapy staff did for me in nine days, three hours a day, was incredible.”

One of the country's very first specialty physical rehabilitation facilities.

Helen Hayes Hospital has a well-earned reputation of excellence in rehabilitation medicine. For over 110 years, we have excelled in providing the medical, nursing, and therapeutic care patients need to rebuild their lives following catastrophic injuries, debilitating surgeries, and chronic disabling illnesses. Paired with state-of-the-art equipment and technology, this expertise enables our patients to move on to active and productive lives and return to work, school, and home.
